Wired Remote

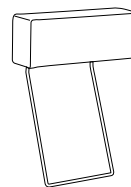

Upgrade for Power Level Function

Add a wired remote to your power sleeper. Connects directly to the control box to operate seamlessly. This remote can be used in addition to the standard wireless remote.

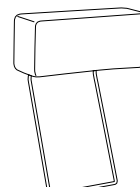

Do not attempt to use the wired remote and wireless remote simultaneously, it may damage the motors and void any warranty on the power system.

Universal Headrest

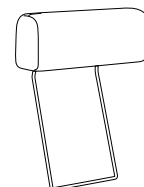

Track Thin

Y22, Y30

Track Thick

YY22, YY30

Round

Z22, Z30

Upgrade for Compatible Designs

These headrests are easy to add or remove, and do not interfere with the operation of our functional furniture. We suggest choosing a matching upholstery to the furniture.

ACCS-W2

Double

Upgrade for any Design

This accessory uses a bottom metal wire to align with the seat seam to rest securely on top. It does not attach to the seat, but does rest on top with stability.

Single (W1)

W 4.75x6x20

Double (W2)

W 9.5x6x20
